## Wolverine Hopes For Championship Brightens In Win

### Carole Bailey Is Crowned As Queen For School Homecoming

Coach Cal Farley's local cardinal and white grid machine rolled to their fifth win of the season last Saturday afternoon in their annual Homecoming event on the local high school field. Victim of this week's onslaught was the Lovelock Mustangs by a final tally of 34-12.

Saturday's victory definitely puts the Wolverines in the commanding position for the Northern Nevada championship and the right to play in Las Vegas November 14 for the state diadem.

Although the Mustangs offense was fairly impressive Saturday they simply could not cope with the Wolverines bevy of hard running backs and the pass plays engineered by quarterback Jerry Cinani. The cardinal and white gave quick indication of things to come as they scored in three plays following the opening kick-off. Sammy Medford took a hand-off off the left side, cut to the outside, and went forty-eight yards for the first touchdown.

The conversion attempt was good and Truckee led 7-0 before the game was two minutes old. After Lovelock had come back on a forty yard pass scoring play to narrow the count to 7-6, Medford, the senior speedster, still in the first quarter, repeated the performance on the same play for a sixty-two yard scoring gallop.

The conversion was again good

## Woods Again Dry As Two Fires Are Fought In District

That the current fire season is by no means ended was demonstrated Sunday when two incipient blazes were discovered and extinguished in the local area.

Jack Schindler of Tahoe Forest Service Station took a trip to the unmanned State Line lookout Sunday morning and located a small fire near Martis Peak on the Nevada side. A quarter of an acre was burned over before it was stopped.

The second fire was located near Woodchoppers Camp in the Boca area but was soon stopped.

It is believed that both fires were started by abandoned camp fires. A strong wind was blowing and it was fortunate, forest service officials said, that the fires were discovered before they gained headway.

Two members of the local forest service staff, Assistant Ranger Norman Anderson and Wayde Rowse were away, having been called to aid in the fires which ravaged thousands of acres near Los Angeles. Also out of the area on the southern California fire is the big tanker.

Ranger Roy Saarni asked that continued caution be used by those frequenting the forest to prevent additional fires.

## District Will Study Plan To Activate Old Local Airport

### Negotiations To Continue To Develop Field On Joerger Land

Directors of the Truckee-Tahoe Airport District moved Tuesday night to consider rehabilitation of the old Truckee airport, just east of here on the new freeway.

This action was taken to provide a usable landing strip for small aircraft. Zeph Rose, district chairman, said the district will only investigate the cost of grading and sealing the present strip and the possibilities of acquiring ownership.

The district is now finalizing agreement with Joe Joerger for a permanent airstrip site just south of here on the Brockway cutoff, Rose pointed out.

The district has received numerous requests and a firm proposal from the Aero Enterprises of Walnut Creek to operate the old airport as well as the new development.

The board will meet again November 3 at 7:30 p. m. at the office of the Truckee Public Utility District to act upon information gathered in the next two weeks. The many planes using the Lake Tahoe Airport at Tahoe Valley shows the usefulness of this type of transportation to the area.

Should the district act to operate the existing field it will also enter into an extensive program to attract private fliers to the area. Rose explained that the district is vitally interested in the development of the region and wishes to advance the use of recreational and economic facilities.

## Warning Issued On Cutting Of Trees

With the Christmas tree harvest nearing, cutters are being reminded on the county and state laws governing this occupation.

Roy Saarni, Truckee district ranger on the Tahoe National Forest, points to the penal code which provides that any persons who for commercial purposes willfully or neglectfully destroys, cuts, mutilates or removes any native tree or shrub growing upon land not his own, without a written permit from the owner of the land, is guilty of a misdemeanor.

A Placer County ordinance is cited by Judge Harry Charrison of Tahoe, which provides that no person shall transport more than five trees or more than five pounds of native shrubs over a public highway without first filing an application and procuring a permit from the judge of any judicial district court.

The same ordinance provides that any person violating any provision of the ordinance is guilty of a misdemeanor and subject to arrest and a fine or jail sentence or both.

Similar ordinances are effective in Nevada and other counties and all tree cutters are being advised by Saarni and Charrison to familiarize themselves with the law before cutting trees.

## WORK IS SPEEDED ON NEW TAHOE BUILDING

TAHOE CITY — Placer County Executive John Bernard said the county is speeding up its construction program for a county jail annex here in preparation for the VIII Winter Olympic Games in nearby Squaw Valley.

The county has budgeted $30,000 for the construction of a new building, which will have jail facilities for 16 people, a justice court area, a building inspectors office and space for various county offices. The building will be constructed on a 10 acre site on state highway 28 one mile east of Tahoe City.

Bernard said a crash program is under way to complete the jail annex by the time of the February, 1960 Olympics. He said the other portion of the two story building probably will be completed next summer or fall.

## ASSESSED VALUES IN COUNTY SHOW GAIN

Taxable assessed valuations in Nevada County for 1959-60 amount to $39,771,280, an increase of 4.4 per cent from the $38,105,740 for 1958-59, according to California Taxpayers' Association's report on valuations in the state's 58 counties in its official publication, Tax Digest, for September.

Placer County showed an increase of 7.2 per cent with $106,991,820 for 1959-60, as compared with $9,798,845 for 1958-59.

Plastic bags should be kept out of reach of small children, warns the National Safety Council. The two plastic bag suffocations reported this summer in California occurred when one mother gave her three-months-old infant a plastic bag for a plaything, and then left the house. The other occurred when a 28-months old boy was locked in the house alone while his mother went shopping.

Mrs. Chris Burmer, Tahoe City, showed us the adult education survey from Truckee to determine if enough adults in this area are interested in night courses this winter. Among the 20 courses to be offered, we wished we could cram in U. S. history, real estate, French, photography, biology, choral singing and atomic radiation. Seems an interesting way to while away some winter nights and gain a mental profit.

He has plans for a testing program for prospective interpreters, which will be conducted through the University of Nevada. Foreign exchange students attending the university may be pressed into service. Because of the importance of interpreters to the winter games, Seach is still taking applications for positions. Several expert instructors in the languages of Iron Curtain countries from the Armed Forces Language School at Fort Ord, have volunteered their services after a discussion of the language problems with Seach. If anyone in the lake area can parlay vous Francaise, sprechen sie deutsch, el Spagnol, Finnish, Italiano, et cetera, ad infinitum, get in touch with Mr. Seach, at Squaw Valley, or write care 1960 Olympic Games, Tahoe City. Communication with our visiting international guests is going to be a very important part of our role as good hosts.

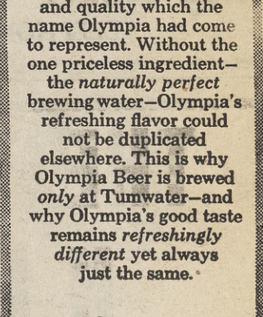
Why Olympia is brewed only at Tumwater



Since 1896, light Olympia Beer has been brewed at the little town of Tumwater, near Olympia, in Washington State. For it is here that Olympia's famed brewing water was discovered *flowing cold and pure from deep artesian wells.* At various times in the past, Olympia's founding family established other breweries along the Pacific Coast. Identical equipment and methods were employed. The same premium quality hops and grains were used. The best water supply available in each region was utilized. Yet, at none of these other locations was it possible to brew a beer of the character and quality which the name Olympia had come to represent. Without the one priceless ingredient—the *naturally perfect* brewing water—Olympia's refreshing flavor could not be duplicated elsewhere. This is why Olympia Beer is brewed *only* at Tumwater—and why Olympia's good taste remains *refreshingly different* yet always just the same.

By SHERRY THATCHER

Candidates for the 1959 Homecoming Queen of Tahoe Truckee were: Debbie Bradley, Lydia Craig, Carol Bailey, Diane McGihon, Shirley Smith and Sherry Thatcher, all seniors. The queen, Miss Carol Bailey, and her two attendants, Debbie Bradley and Sherry Thatcher, were announcd at a rally Friday, and Carol was presented with a football signed by all the members of the team. The Wolverines were victorious and the queen and her attendants appeared at the game and at the dance where Carol was crowned by Marty Kumle, captain of the football team.

The alumni who came to the dance were: Nancy Williamson, Virginia Fudge, Ronnie Rasmussen, Allan Young, Rex Donaldson, Sharon Bechdolt, Stan Baker, Damon Wainscoat, Ray Cantrell, Dennis Schlumph, Steve Cowan, Larry Reid, Ron Germain, Kit Schull, Jim Hutchins and John Firpo.

The varsity cheerleaders performed a modern dance while the school dance band played "Night Train." The Speck brothers, Butch and Jim, played some popular selections on their electric guitars.

The seniors received the proof prints of their pictures Friday, October 16.

Andy Baumgardner, our new J. V. basketball coach, was born in San Francisco, in 1936. He is a graduate of San Jose State College. He has just completed a tour of duty with the Army Transportation Corps. As a second lieutenant he coached the Ft. Eustis basketball team to second place in the Second Army Area Tourney.

"This is an exceptional school," he said of Tahoe Truckee, "which can boast of superior administrators and teaching staff, and top quality students. It is my honest opinion: I have never observed such an ideal situation as I have experienced here. The cooperation from faculty and students alike is wonderful."

RAILROAD FEATHERBEDDING:
$500,000,000 LOSS
TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads — pay for work not done or not needed — is costing the American people the shocking total of more than $500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman — even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is **a fair day's work for a fair day's pay.**

# DONNER DOINGS

BY VIRGINIA O' BEAR

A reunion of four generations got together at the Art Mori home at Donner Lake recently. Mrs. Wilhemina Olsen of San Francisco came up to see her daughter, Mrs. Mori, her grandson Bob Mori and great-grandson Jeff who just joined the family a few months ago.

Have you been out to inspect the new fire house? The firemen worked again Sunday and the roof is on and most of the siding. The ladies auxiliary served a hot lunch of fried chicken, home cooked beans, yeast rolls and coffee to the busy workers. It is amazing what can be done in two days. The firemen have put in the past two Sundays getting the building ready for the fire truck. This Sunday the firemen will start work at 8 o'clock and will put on the aluminum roof, the rest of the redwood siding and hang the doors. If you are not busy Sunday, go out and give the firemen a hand, they will appreciate your help. The ladies auxiliary will again serve a hot lunch to all workers.

The Ladies Auxiliary held their regular meeting at Donner Lake Lodge last Thursday night and most all of the members were there. It was the largest turn-out since before the busy summer months started. Many members brought guests and an enjoyable time was had by all. It was decided to have a card party on Friday, November 13. The place is indefinite but will be made public very soon. Reserve Friday the 13 . . . it's a good time for a card party. The next meeting of the auxiliary will be at Donner Lake Lodge on November 19, so don't forget that date, be sure to take a new neighbor, she will enjoy it.

Donner Lake resorts are off to a good start. A meeting was held last Sunday night with President Carson White presiding. A definite date was set for regular meetings which will be a dinner meeting set for 7:30 the first Sunday evening in each month. A special meeting is set for this Sunday night at 8 o'clock. At that time, Art Saunders will present several sketches for the members to choose from so they can decide which emblem would be suitable for letterheads and advertising purposes. Dues will be collected that night, payable quarterly or yearly, as desired. Many projects are in the planning stage to publicize Donner Lake and one is a fish derby planned for next spring which will include prizes for children as well as adults. Many contacts are being made now in various cities with newspapers, sporting and fishing magazines and with several sportscasters on TV and radio.

* * *

This week, a long list of names of people living at Donner Lake is being sent in to E. J. Arch, postal inspector from Reno. Most of the people are very anxious to find out what the results will be but of course it will take some time. Our chances of getting a delivery service for Donner Lake are good but Arch has to send our requests to Washington, D. C. As soon as I obtain the results, I will let everyone know in the column.

* * *

Things are really building up at Donner Lake. Everywhere I look there is a new home being built. A lot of subdivisions are going in, too. The Olympic tract put in this past summer by Armstrong Realty is completely sold out. There is a new tract being prepared now at the northeast end of Donner Lake. It is called the Armstrong Subdivision and the roads have just recently been roughed in by Chuck Merica and his big "cat." The men are getting in the pipe line this week and then Chuck will go through with the "cat" and cover them up. There are beautiful views from this tract and it is located right across from the Donner Memorial State Park.

The California buckeye is one of the first of the deciduous trees to leaf out in the late winter.

Continued from Page 1

and the Wolverines led 14-6 as the first quarter ended.

Midway through the second period Cinani, diminutive local quarterack, hit Woody Ribal with a forty yard scoring pitch and following another successful conversion the cardinal and white led 21-6 at half time.

**SECOND HALF**

After recovering a fumble on Truckee's thirty-four yard line midway through the third quarter, Lovelock, aided by three successive penalties against the hard charging Wolverine line, narrowed the count to 21-12 on a two yard scoring plunge by fullback Aldon Hesterlee.

Late in the same period the Wolverines came up with the most thrilling play of the day. Cinani hit Bob Merica, Truckee left end, in the flat and Merica waiting until just the right instant as the defensive half back made the tackle lateralled off to wing back Woody Ribal who galloped down the sideline forty-four yards for the score.

The Wolverines got their fourth consecutive conversion and went out in front 28-12. Ribal, a very busy young man Saturday afternon, playing in his first game this season after recovering from a fractured jaw, ended the scoring midway through the fourth period, as he powered over right tackle twenty-six yards and his third touchdown of the day.

Coach Farley reviewing the game didn't feel the defense was quite up to par but lauded both lines for offensive praise and particularly thought Ribal, Medford, and Randy Schultz did a real job running the ball. Bill Notley sustained a pulled groin muscle warming up and couldn't play while Captain Marty Kumle missed the second half with a bruised breast bone.

FEAR ME NOT, WIFE-OF-OGU! I AM TARZAN, CHIEF OGU'S FRIEND... THESE GREAT APES ARE MY FRIENDS! NONE OF THEM HAVE HARMED YOU, HAVE THEY?

NO, TARZAN, THESE ARE NOT THE BIG UGLY MEN WHO TOOK US FROM OUR HOMES THEY FED ME WELL... BUT I FEAR FOR WHAT THEY MIGHT DO TO ME!
